DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-40, drawn to a method of purchasing a list of prospective customers, classified in class 705, subclass 10.
 - II. Claims 41-49, drawn to a method of modifying a list stored in a database, classified in class 707, subclass 102.
 - III. Claims 50-72, drawn to a system for implementing a computerized list service on a database on a server, classified in class 707, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as method of purchasing goods (i.e. data). Invention II has separate utility from inventions I and II such as a method for manipulating, editing and updating data in a database. Finally, invention III has separate utility such as implementing a list service on a server system accessible by customers. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3626

4. . Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or Group III, restriction for examination purposes as indicated is proper.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Kalinowski, whose telephone number is (703) 305-2398. The examiner can normally be reached on Monday to Thursday from 9:00 AM to 6:30 PM. In addition, the examiner can be reached on alternate Fridays.
